

## Tool and Die Maker

Wednesday, 28 January 2009

Last Updated Monday, 17 May 2010

Description:PMT Industries, a state-of-the art steel forging operation in northeast Tennessee is accepting applications/resumes for Tool and Die Makers.

Requirements:This position uses manual and CNC equipment to make forge die tooling. You will operate the latest in CNC equipment such as lathes, vertical milling centers, horizontal milling centers, high speed milling machines, and (EDM) electrical discharge machines. You will use saws, grinders, drill presses, forklifts, overhead cranes, computers, hand tools, and measuring tools. Journeyman status or tool making experience in forging, casting, or stamping fields is required.

Send resume to:
